ROME FALLS

Singularity

Scientists, they say we don't matter,
But the Universe has other ideas.
Embrace as our particles scatter.
The Time Wave ends after all of these years.

Singularity.

Infinite Novelty.

As we reach the end, do not fear.
We were always meant to be here.
As time and space meet as one.
We are the Eschaton.

Drawn toward the transcendental object at the end of time.
Under history and ideology we have to draw a line.
Shamanic experience tells us, all we need to know.
We've been offered this transition, we have to go.

Singularity.

Infinite Novelty.

As we reach the end, do not fear.
We were always meant to be here.
As time and space meet as one.
We are the Eschaton.
